Increase in T.B. Cases

1082. DR. '(SHRIMATI) SAROJINI MAHISHI): Will the Minister of HEALTH AND FAMILY WELFARE be pleased to state:

(a) what is the present number of T.B. cases in the country and the num-oer of people who died during last three years;

(b) what is the duration of treat ment of T.B.;

(c) what drugs are used for treatment of TB and what is their cost per day;

(d) whether any vitamin preparations are also being prescribed along with anti-TB medicines;

(e) if so, what are the names thereof;

(f) whether it is a fact that a number of drugs combination have been allowed for marketing for treatment of TB at exorbitant prices;

(g) if so, composition of each of these combinations along with strength, pack and price of, each;

(h)' whether it is a fact that price* of most of combinations have not been fixed and drug companies are overcharging;

(i) whether Government have received any complaint in this regard and

(j) if so, the details thereof action taken therefor?

THE MINISTER OF STATE THE MINISTRY OF HEALTH * FAMILY WELFARE (KUMAR SAEOJ KHAPARDE): (a) Tut culosis is not a notifiable disease as such no statistics regarding numb of persons suffering from T.B. is available.

As per the records available the number of persons who died due ' T.B. during the last three years is under:

1985 .. 9933
1986 .. 9425.
1987 .. 8796

(b) Under the conventional therapy i.e. with Injection streptomycin, INH, PAS, Thiacetazone etc., the duration of treatment is 12—18 months. However, with the use of latest anli-TB drugs like refampicin and Pyrazina-mid$_e$ along with INH etc. the duration Of treatment for such patients has come down to about 6 to 8 months.

(c) Under the programme the following anti-TB drugs are used for the treatment of TB patients:

1 Injection Streptomycin Sulphate.
2. I.N.H.
3. P.A.S.
4. Thiacetazone
5. Ethambutel
6. Rifampicin and
7. Pyrazinamide

Under the National Programme for Control of Tuberculosis free diagnos- tic and treatment facilities are avail- ' able in country.

(d) and (e) Vitamin preparations are generally required for thoss TB patients who exhibit certain signs and symptoms of deficiency of a particular vitamin(s). Further, i$_n$ those patients

who are prescribed biweekly intermittent regiments containing INH in higher dosage, Vitamin B6 (Pyridoxin) is usually prescribed along with anti-TB drugs t_0 prevent peripheral neuropathy.

(f) and (g) The combination of rugs marketed in the country for the reatment of tuberculosis are: —

1. Rtfampicin 450 mg + INH 300 — strip of 2 capsules.
2. Ethambutol 800 mg -f- INH 300 mg — strip of 19 tablets.
3. Sodium PAS 834 mg + INH 25 mg — a bottle of 100 tablets.
4. Taiacitaf&ne 150 mg + INH 30 mg —.a Pack of 10 tablets.′
5. Steptomycih sulphate 1 gm + Sodiuinmethanesulfonate of INH. 380 mg per vial — each vial

(h) to (i) No such complaint has been received.in this regard in tnis Ministry.
